

Hi, Neighbor . . . Buy, Neighbor

A Buying Guide to Agricultural Products in Lower Milford Township has been prepared by LMT resident and Planning Commission member Lois Gadek, with printing sponsorship from Cowan Engineering. The brochure reminds Township residents to support the people who are keeping our Township an active farming and rural community. The brochure contains the names and contact information for some of the Township residents who are involved in various agricultural and related businesses. Please make every effort to be a good neighbor to those who have been good neighbors to all of us, by supporting the people who keep our Township green!
